ABOUT ME

B.Tech CSE student at JIS University with experience in frontend development and academic programming. Built multiple web-based projects and completed freelance digital tasks for practical exposure. Seeking internship opportunities to apply skills in real-world development environments.

SKILLS

Programming Languages:

- C (problem-solving, academic projects)
- HTML, CSS, JavaScript (frontend development)
- Assembly (academic exposure – basics)

Tools & Digital Technologies:

- Git & GitHub (version control)
- Canva (graphic design)
- SEO & SMO (on-page SEO, content optimization)
- Meta Ads (basic ad setup, audience targeting, and performance monitoring)

PROJECTS

1. To-do List Application
   - Developed a responsive task management web application using HTML and CSS.
   - Implemented task creation, deletion, and status tracking for daily productivity.
2. Notes Finder Website
   - Designed a simple web-based platform to organize and search notes efficiently.
   - Focused on clean UI design and usability.
3. Eco cart India
   - Developed a web-based tool to estimate carbon footprint in online shopping based on product and delivery parameters.

(Project details and repositories available on GitHub)
